CONTENTS.

	Page
<i>Estimated Average Produce of the Crops:—</i>	
Observations on the mode of Collecting the Returns of Produce in Ireland,	3
Increase or Decrease in the Average under Crops in 1872,	3
Increase or Decrease between 1871 and 1872 in the Estimated rate of Produce per Statute Acre,	3
Increase or Decrease in the Estimated Total Produce of the Crops in 1872,	3
Extent of Land under each of the principal Crops in 1871 and 1872, and the Increase or Decrease in 1872,	4
Estimated Produce per Statute Acre of the principal Crops grown in 1871 and 1872, and the Increase or Decrease in the latter Year,	4
Estimated Total Produce of the principal Crops grown in 1871 and 1872, and the Increase or Decrease in the latter Year,	4
Arable Yield of the principal Crops, by Counties, Provinces, and for all Ireland, in 1871 and 1872,	5
Extent under each of the principal Crops, the Estimated Total Produce, and the Average Yield per Acre, for all Ireland, for each Year, from 1851 to 1872,	6
Meteorological Observations for the Year 1872,	6-7
<i>EMIGRATION:—</i>	
Number of Emigrants from each Province, and of Emigrants who belonged to other countries,	7
Number of Emigrants, from the 1st of May, 1871, to the 31st of December, 1872; and the proportion per cent, of Emigrants from each County and Province, to the total Emigration,	8
Number and Ages of Emigrants from each Province, and from all Ireland, during 1872; also of persons belonging to other countries, who embarked at Irish Ports in the same Year,	9
SOUTHERN MILLS—by Provinces and for all Ireland, from 1860 to 1872,	9

TABLES.

<i>Estimated Average Produce of the Crops:—</i>	
The quantity of Cereal Produce in "Quarters;" also of Potatoes in Tons, and the Total Average under Crops, in the years 1871 and 1872, by Counties and Provinces,	10-11
Average under the principal Crops,—the estimated Average Produce per Statute Acre,—and the Total Produce, in 1847, and from 1849 to 1872, inclusive,	10-11
Average Produce of the Crops per Statute Acre; and the Estimated Total Produce by Counties and Provinces, in 1871 and 1872,	12-15
Average under the several Crops by Counties and Provinces, in 1871 and 1872,	12-15
<i>GENERAL ABSTRACT, showing the AVERAGE under the several CROPS, in STATUTE MEASURE; the TOTAL PRODUCE of each Crop in TONS; and the INCREASE or DECREASE in the PRODUCE between 1871 and 1872, by PROVINCES, and for all IRELAND,</i>	
16	
<i>EMIGRATION:—</i>	
Number of Emigrants, and their Sex, who left the different Ports of Ireland during each month of the year 1872,	17
.. Emigrants, and their Sex, from every County and Province during each month of the year 1872,	18-19
.. Emigrants, and their Sex, from each County and Province, and the Ports at which they embarked, in the year 1872,	20-21
Number and Ages of Persons under one year, and one year old and upwards, in quinquennial periods, who Emigrated from the several Counties, in 1872,	22
<i>SOUTHERN MILLS:—</i>	
Number of Scutching Mills, Locality, Number of Stocks and Handles in each Mill, and also the number of Weeks each Mill was at Work from 1st June, 1871, to 31st May, 1872,	23-43
Copy of the Form used in collecting the Returns of Scutching Mills,	40-47

Copy of the Circular and Forms used in obtaining the Average Yield per Acre,	47-48
Copy of the Form used in taking the Returns of Emigrants at the different Ports of Ireland,	48

AGRICULTURAL STATISTICS, IRELAND.

THE ESTIMATED AVERAGE PRODUCE OF THE CROPS:

ALSO,

THE EMIGRATION FROM IRELAND IN THE YEAR 1872,

AND THE

NUMBER OF MILLS FOR SCUTCHING FLAX IN EACH COUNTY AND PROVINCE.

TO HIS EXCELLENCY JOHN POYNTE, EARL SPENCER, K.G.,

LORD LIEUTENANT-GENERAL AND CHIEF SECRETARY OF IRELAND.

do. do. do.

MAY IT PLEASE YOUR EXCELLENCY,

On the 2nd of August, 1872, I had the honour of submitting a Return of the acreage under Flax in 1871 and 1872, and on the 4th of September, General Abstracts, showing, by Counties and Provinces, the extent under the various crops, and the number of live stock in Ireland in 1872; also the emigration from Ireland during the first seven months of the same year, together with an Appendix containing extracts from the works of the late Sir John Sinclair, Professor Buckman, and other eminent writers, as to the great importance of *extirpating weeds*. I now beg to bring under your Excellency's consideration, Tables which give the *estimated average produce* of the principal crops; and the total emigration from this country in 1872.

The Tables relating to the *average produce* of the crops per acre, have been carefully compiled as in former years, from information obtained by members of the Royal Irish Constabulary and Metropolitan Police Forces, from practical farmers, and others conversant with the yield in the *electoral division* for which the Return was made. The names and residences of the parties affording the information are given on the forms by the Enumerators.

Made of
collecting the
Returns of
Produce.

Copies of these Returns were forwarded by me to the Chairman and Board of Guardians of each Union for revision, and I have the satisfaction to state, that out of 2,438—the entire number of electoral divisions—Returns revised or approved by the Guardians^o have been received for nearly 3,000 electoral divisions.

The area under each of the principal crops as published in the "General Abstracts" has been carefully revised, and the totals used in making the present calculations; so that the average yield, as given in these Tables, is as approximately accurate as can be expected in returns of this description.

The acreage under crops in 1872, as compared with 1871, shows a general decrease in cereal crops—in wheat of 19,157 acres, oats 11,425 acres, barley 1,966 acres, bere and rye 1,580 acres. Potatoes decreased by 66,563 acres, flax 34,678 acres, and hay 28,771 acres. Turnips show an increase of 19,676 acres, mangrel wurzel 2,892 acres, and cabbage of 6,444 acres.

The crops which show a decreased *estimated average produce* per acre in 1872, compared with 1871, are—wheat 0·7 cwt., oats 1·3 cwt., barley 0·9 cwt., rye 1·1 cwt., potatoes 0·8 ton, turnips, 1·6 ton, mangrel wurzel 1·1 ton, and cabbage 0·1 ton. The crops which give an increase in the *estimated average acreable yield* are—bere 0·1 cwt., flax 9·2 stones, and hay 0·1 ton.

In the *estimated total produce* of the cereal crops there is a diminution of 921,864 quarters; in wheat the decrease is 96,108 quarters, in oats 756,358 quarters, in barley 61,888 quarters, in bere 3,254 quarters, and in rye 4,806 quarters. Turnips have decreased by 233,027 tons. Potatoes by 987,814 tons; this large decrease is owing to a less extent of potatoes having been planted, and also to a much smaller yield than in the previous year. According to the returns, the produce of potatoes per acre has been for all Ireland, with the exception of the year 1861, the lowest average yield since these Statistics were first taken in 1847. In the counties of Cork, Down, Kerry, Limerick, Waterford, and Wexford, the yield was less than one half of that in 1871—when the crop was considerably below the average. The unprecedented number of wet days during 1872 proved very injurious to the crops generally. Rain or snow fell on 253 days throughout the year, being 63 days above the average of the 10 years previous, and 32 days more than in 1862, which had the highest number of days on which rain or snow fell during the same period (10 years).

* Copies of the forms and circulars used in obtaining the information are given at pages 47 and 48.

The acreage under Crops, and estimated average produce in 1871 and 1872.

The following crops show an increase in the total estimated produce:—mangel wurzel 266 tons; cabbage 57,587 tons; flax 4,170 tons; and hay 180,471 tons.

The acreage under the principal crops in 1871 and 1872, and the increase or decrease in the latter year, are given in Table I.; the *estimated average produce per acre* and the *total yield* in Tables II. and III.; a comparison of the *average produce of the crops per acre* in each county and province in 1871 and 1872, in Table IV.; and in Table V. the extent under the principal crops, the total produce, and the *estimated average yield per acre*, for each year from 1851 to 1872, inclusive.

TABLE I.—The total acreage under each of the principal Crops in 1871 and 1872, and the increase or decrease in the latter year.

Crops.	Extent Cultivated in		Increase or Decrease in 1872.	
	1871.	1872.	Increase.	Decrease.
	Acre.	Acre.	Acre.	Acre.
Wheat,	244,451	225,294	.	19,157
Oats,	1,636,196	1,634,711	.	11,485
Barley,	229,979	219,013	.	1,966
Born and Rye,	11,553	9,979	.	1,580
Potatoes,	1,038,434	991,871	.	46,563
Turnips,	327,035	316,711	10,324	.
Mangel Wurzel,	31,810	34,702	2,892	.
Cabbage,	33,098	30,433	6,444	.
Flax,	155,670	121,992	.	34,678
Hay,	1,822,944	1,800,973	.	21,971
Net Decrease,				135,128

TABLE II.—The estimated average produce per statute acre of the principal Crops in 1871 and 1872, and the increase or decrease in 1872.

Crops.	Produce per Acre.		Increase or Decrease in 1872.	
	1871.	1872.	Increase.	Decrease.
Wheat, in Owt.,	12.4	11.4	.	0.7
Oats, "	12.7	11.4	.	1.3
Barley, "	15.2	14.3	.	0.9
Born, "	14.5	14.6	0.1	.
Rye, "	10.8	9.7	.	1.2
Potatoes, in Tons,	5.0	1.8	.	0.8
Turnips, "	13.0	11.4	.	1.6
Mangel Wurzel, in Tons,	13.6	12.4	.	1.1
Cabbage, in Tons,	10.0	9.9	.	0.1
Flax, in Stacks of 14 lbs.,	13.2	23.4	9.2	.
Hay, in Tons,	1.8	1.9	0.1	.

TABLE III.—The estimated total produce of the principal Crops grown in 1871 and 1872, and the increase or decrease in the latter year.

Crops.	Estimated Produce.		Increase or Decrease in 1872.	
	1871.	1872.	Increase.	Decrease.
	Quoties.	Quoties.	Quoties.	Quoties.
Wheat,	705,939	500,831	.	95,108
Oats,	7,410,514	6,634,450	.	776,064
Barley,	931,083	805,745	.	125,338
Born,	8,707	5,453	.	3,254
Rye,	26,919	21,113	.	5,806
	Tons.	Tons.	Tons.	Tons.
Potatoes,	2,793,841	1,501,827	.	987,814
Turnips,	4,246,332	3,963,205	.	283,027
Mangel Wurzel,	435,516	450,732	965	.
Cabbage,	331,547	388,934	57,387	.
Flax,	12,919	17,089	4,170	.
Hay,	3,816,025	3,495,996	180,471	.

TABLE IV.—The average acreable yield of the principal Crops in 1871 and 1872, by Counties and Provinces. Acreable yield of the Crops in 1871 and 1872.

COUNTIES AND PROVINCES.		ESTIMATED AVERAGE YIELD FOR SEVERAL YEARS.

METEOROLOGICAL OBSERVATIONS.

Meteorological observations.

In connexion with the Agricultural Statistics, I beg to give the following abstract (Table VI.) of the Meteorological Observations registered at the Ordnance Survey Office, in the Phoenix Park, during the year 1872, for which I am indebted to the courtesy of Colonel Wilkinson, R.E.

The barometer stood highest in 1872, on the 6th of April, at 30.30 A.M.,—wind S.E.—when it was 30.423 inches; it was lowest at 9.30 P.M., on the 17th January,—wind S.S.W.—when it was 28.477 inches. The highest temperature of the air during the year was 81.4 degrees of Fahrenheit, on July 4th, and the lowest 23.0 degrees, on December 29th. The greatest quantity of rain which fell in a day (24 hours) was 1.540 inches on the 21st of April—the wind being N.E. The point from which the wind chiefly prevailed was from the S.W.; it blew from that direction 76 days, with an average pressure of 3.25 lbs. per square foot. The strongest wind was from the S.S.W., on the 6th of January, when the pressure was 25 lbs. per square foot.

Meteorological observations.

EMIGRATION FROM IRISH PORTS IN 1872.

Emigration from Irish Ports.

The number of emigrants who left the Irish ports in 1872 was 78,781, being an increase of 6,777 compared with 1871.

The number of males who emigrated in 1872 was 46,741, being 4,817 more than in the previous year; the females amounted to 32,040, being an increase of 1,960, compared with 1871.

The following Table (VII.) gives the number from each Province in 1871 and 1872, distinguishing the sexes.

TABLE VII.—The Emigration from each Province during 1871 and 1872.

EMIGRANTS FROM	Males.		Females.		Total.

EMIGRATION FROM IRISH PORTS IN 1872.

The succeeding Table is in continuation of one published annually for some years past, and gives the number and sex of the Emigrants from each County and Province, since the 1st of May, 1851—(the date at which the collection of these Returns at the several Irish Ports was commenced)—to the 31st of December, 1872; also the proportion per cent. for each County and Province on the total number of Emigrants who left Ireland during that period.

TABLE VIII.—Table showing by Counties and Provinces the Number of Emigrants (distinguishing Males and Females) who left Ireland from 1st May, 1851, to 31st December, 1872, and the per-centage from each County.

Number.	PROVINCE AND COUNTY.	Number of Emigrants from 1st May, 1851, to 31st December, 1872.			Proportion per cent. of Emigrants from each County to the total Emigrants.	Number.
		Males.	Females.	Total.

The ages of the emigrants are given by provinces, in Table IX., from which it appears that in 1872—77·6 in every 100 of the persons who left Ireland were between the ages of 15 and 35 years. In 1871 the proportion per cent. for these ages was 76·4 per cent.

Emigration from Irish Ports.

SCUTCHING MILLS.

A Table is given commencing at page 23, showing by Provinces, Counties, Baronies, Parishes and Townlands, the locality of every Mill for scutching Flax; the number of Stocks and Handles in each; and the period, in weeks, during which every Mill was at work, from the 1st of June, 1871, to the 31st of May, 1872. There were 1,482 of these Mills at the time the Statistics were collected (in June, 1872), of which 1,875 were in Ulster,—36 in Leinster,—39 in Munster,—and 82 in Connaught.

The following is the number of these Mills, in each year, from 1863 to 1872 inclusive, by Provinces:—

Provinces.	1863.	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.
1. Ulster, .	1,565	1,115	1,314	1,395	1,418	1,420	1,392	1,403	1,391	1,375
2. Leinster, .	13	10	44	49	23	47	45	39	40	36
3. Munster, .	10	13	43	39	41	41	41	39	35	39
4. Connaught, .	3	4	26	32	28	34	33	31	33	32
IRELAND, .	1,600	1,148	1,426	1,513	1,540	1,542	1,511	1,518	1,499	1,482

I beg to repeat my respectful acknowledgments for the continued assistance afforded to the Enumerators by the landed proprietors and tenant-farmers of Ireland who furnished the particulars from which the foregoing tables have been compiled. I have also to express my best thanks to the several Boards of Guardians by whom the average *average yield* of the crops has been revised; and to the Metropolitan and Provincial Press for making widely known the importance of these Statistics. It affords me much satisfaction to state to your Excellency that those members of the Royal Irish Constabulary and Metropolitan Police who acted as Superintendents of the work, and also the Enumerators discharged this duty with their usual efficiency.

I have the honour to be,

Your Excellency's

Very faithful servant,

WILLIAM DONNELLY,

Registrar-General.

GENERAL REGISTER OFFICE,

CHARLEMONT HOUSE, DUBLIN,

31st March, 1873.

FORGOING CROPS, IN STATUTE MEASURE.

[illegible]

GENERAL ABSTRACT showing the ACREAGE under the several CROPS, in STATUTE MEASURE; the TOTAL PRODUCE of each CROP; and the INCREASE or DECREASE in the PRODUCE, between 1871 and 1872; by PROVINCES, and for all IRELAND.

PROVINCES.	Description of Crops.	CEREAL CROPS.						Description of Crops.	OTHER CROPS.					
		Average under Crops.		Estimated Quantity of Produce.		Difference of Produce between 1871 and 1872.			Average under Crops.		Estimated Quantity of Produce.		Difference of Produce between 1871 and 1872.	
		1871.	1872.	1871.	1872.	Increase.	Decrease.		1871.	1872.	1871.	1872.	Increase.	Decrease.
LEINSTER.	Wheat, Oats.	63,087 369,551	68,817 307,839	69,687 297,028	34,084 246,963	-	5,353 23,077	Potatoes, Turneps.	208,549 166,830	189,433 177,055	589,585 546,053	360,721 3,416,264	-	301,224 36,451
	Barley, Beans.	186,140 1,382	167,519 927	116,235 913	214,609 545	-	4,708 362	Mangel, Cabbages.	34,814 3,639	18,205 9,974	190,692 87,666	146,617 69,025	-	11,000
	Rye, Barren, Potatoes.	1,343 5,814 477	1,215 4,735 491	780 4,779 415	803 4,878 351	111 27	-	Flax, Meadows.	3,880 621,715	2,824 607,476	851 1,686,093	302 1,175,034	-	26

COPIES of the CIRCULARS and FORMS used in obtaining the average yield of the CROPS per acre, for 1872.

General Register Office,

Charlemont House, Dublin,

1st November, 1872.

SIR,

You will receive herewith blank copies of "Form Q," referred to in the "General Instructions" addressed to the Enumerators on the 14th of last April, in order to enable you to procure Returns of the *Rate of Produce* of the various Crops grown in each of the *Electoral Divisions* mentioned in the enclosed List,—which should be sent back to this Office with these Returns—in one file—when completed.

I beg you will be so good as to select for this service Enumerators known to you for their intelligence and acquaintance with the parties resident in the *Electoral Divisions* for which the Returns are required. Instructions as to the method of filling the Forms are printed on them. *Pray direct the Enumerators to pay particular attention to these instructions.*

From the friendly co-operation and assistance afforded to the Enumerators by all ranks and classes when collecting the Agricultural Returns for this year, I confidently trust that by making inquiries from the resident Gentry, Clergy, and intelligent Farmers in the District, a valuable approximation will be arrived at as to the average Rates of Produce per Acre of the various kinds of Grass, Potatoes, and other Crops grown in the several Electoral Divisions—that being the object of this Return,—to which accuracy, as far as possible, can alone give any real value.

Your attention is particularly requested to this subject, in consequence of the increasing importance of Agricultural Statistics, and I trust you will be enabled to forward the Returns for your District to this Office on or before the 10th of November, in order that a General Abstract of the results may be compiled and submitted for the consideration of His Excellency the Lord Lieutenant.

It is my intention, as in former years, to solicit the assistance of the Boards of Guardians on this difficult question, in order to procure their opinions as to the Rates of Produce in the several Electoral Divisions. This information will form a valuable auxiliary to that obtained through the Constabulary.

I am, Sir,

Your faithful servant,

WILLIAM DONNELLY, Registrar-General.

To the Sub-Inspector of Royal Irish Constabulary

FORM Q.—AGRICULTURAL STATISTICS—IRELAND, 1872.

County of _____ Election of _____
Constabulary District of _____ Electoral Division of _____

Return showing the Estimated Average Produce per English and Irish Acre, of the following Crops in the Electoral Division of _____

Crops.	Produce of the Electoral Division.		Name and Address of Person from whom the Information was obtained.
	Per English or Statute Acre.	Per Irish Acre.	
Wheat, in crops, of 112 lbs.			
Oats, do.	do.	do.	
Barley, do.	do.	do.	
Rye, do.	do.	do.	
Maize, do.	do.	do.	
Peas, do.	do.	do.	
Potatoes, do.	do.	do.	
Turnips, do.	do.	do.	
Mangel Wurzel, do.	do.	do.	
Chenopium, do.	do.	do.	
Chickens, do.	do.	do.	
Green Yards, for feeding, per month, in tons.			
Manure, estimated, in tons, for feeding purposes, do.			
Hay, in tons.			

* Note.—112 Irish Acre equal 100 English or Statute Acre.

I certify that I have prepared the Information contained in the foregoing Return from the Persons above named, who in my opinion were well qualified to give it, and I believe the Estimated Average Rate of Produce to be correct. Dated at _____ this _____ day of _____, 1872.

(Signature of the Enumerator.)

I believe the foregoing Return to be correct.

Sub-Inspector.

INSTRUCTIONS.

1. In filling in the Rate of Produce, the yield will be stated per Irish and also per English or Statute Acre, for each Crop, and the Enumerator will be careful to enter the Rate in the Weights (Act 25 and 26 Vic, cap. 58) mentioned opposite to the respective Crops named on the other side of this Form. It is particularly to be borne in mind that the average yield per Acre is for the entire Electoral Division—not for any individual Farm or portion of the Electoral Division.

2. One Form will be filled by the Enumerator for each Electoral Division, as per List furnished to the Sub-Inspector.

3. The information as to the probable yield of the Electoral Division for which the Return is made, should be procured from intelligent Landholders of the District, whose Names and Addresses will be stated in the column left for that purpose.

4. The greatest care should be taken in filling these Forms, and the information should be procured and the Return sent to the Sub-Inspector of the District, on the 10th of November—sooner if practicable.

5. In those parts of the country in which the Cunningham Measure is used, the word "Irish" may be erased with the pen, and the word "Cunningham" substituted at the head of the column. The Enumerator is requested to reduce Irish, or Cunningham measure, by the Form supplied for that purpose, viz., FORM H, which gives to the nearest quarter of an Acre the equivalent extent in Statute Measure; and no fractions less than one-quarter Acre should be used.

WILLIAM DONNELLY, Registrar-General.

General Register Office,
Charlemont House, Dublin,
November, 1872.

cc—

COPY of Form used in collecting the Returns of Mills for Scutching Flax.

FORM D.

County _____ Barony _____ Constabulary District _____ Sub-District _____

Returns of all Scutching Mills, whether idle or at work, situated within the Enumeration District allotted to _____, showing the Power employed in each Mill, with the Names and Addresses of the Owners.

Description of Power. Water Power? Steam Power? Tide Power? Wind Power?	Total Tonnage in each Mill.		Situation.		Owners.		No. of Weeks each Mill was at work between 1st June, 1872, and 1st May, 1873.
	Stalks.*	Headles.*	Parish.	Townland, or Town, if in a Town.	Name.	Address.	

A Return is to be forwarded for each Enumeration District.

If more than one Form is required, two or more may be stitched together.

If there is not a Scutching Mill within the Enumeration District, a blank Return, with a statement to that effect written thereon, should be furnished.

If a Scutching Mill which was returned last year has been converted into a Mill of a different kind, or has been taken down, or is no longer used, the fact should be stated,—naming the Townland and Parish in which the Mill was situated.

* The Species of Scutching Mills are the benches or tables on which the flax to be scutched is placed; and the Headles (or vipers) are the portions of the Machinery which strike the flax.

Signature and Rank of Enumerators _____.

General Register Office,
Parliament House, Dublin.

AGRICULTURAL STATISTICS—IRELAND, 1872.

GENTLEMEN, December, 1872.

I beg to enclose copies of Returns showing the estimated average produce by the English, and also by the Irish Acre, of the various crops grown in 1872, within each Electoral Division of your Union, in order to obtain from the Guardians their opinion as to whether the AVERAGE PRODUCE per Acre,—obtained by the Enumerators from resident Landholders,—fairly represents the yield of the respective crops.

In case the Guardian signing the Return considers any rate entered upon it to be above or below what it should be, columns are provided in which to insert the corrected rate.

As these Forms may be filled without imposing much trouble, I shall feel obliged if the Guardians will be so good as to furnish me with their opinion respecting the produce of the various crops grown this year in their Union, and thus aid in increasing the value of these Returns, which are of so much general importance to the community.

May I request you will be so good as to give directions to the Clerk of your Board to return these Forms to me as soon as possible, as they are required to assist in compiling for publication the Table of estimated average produce of the Crops in 1872.

In case it is found inconvenient to obtain the signature of an Ex-Officio or Elected Guardian, particularly connected with any Electoral Division, the signature of any other Guardian acquainted with the District will be sufficient;—or, if these average rates of produce are discussed and decided upon at a Meeting of the Board, the signature of the Chairman, or of the Clerk, if authorized, will answer the purpose.

I take this opportunity of expressing my obligations to the many Guardians who have been so kind as to assist me in the revision of the Returns of the average produce in former years, and I trust that, on public grounds, I may be excused for soliciting the opinion of your Board on this subject.

Communications to this Office must not be prepaid.

I am, Gentlemen, your faithful servant.

WILLIAM DONNELLY, *Registrar-General.*
To the Chairman and Board of Guardians.

TABLE OF PRODUCE.

Union of _____ Electoral Division of _____

AVERAGE RATES OF PRODUCE for the undermentioned Crops, as made by the Guardians, Enumerators, submitted for the opinion of the Guardians.

Crops.]	Average Produce as returned by the Enumerators.		Corrected Average Produce according to the opinion of the Guardians.	
	For English or Scotch Acre.	For Irish Acre.	For English or Scotch Acre.	For Irish Acre.
Wheat, in cwt. of 112 lbs.				
Oats, do. do.				
Barley, do. do.				
Berse, do. do.				
Rye, do. do.				
Beans, do. do.				
Peas, do. do.				
Swedes, do. do.				
Turnips, in tons. . .				
Mangel Wurzels, do. . .				
Carrots, do. . .				
Cabbages, do. . .				
Green Vegetables (for feeding purposes), in tons. . .				
Potatoes (for human consumption), in tons. . .				
Hops (for feeding purposes), in tons. . .				
Hay, in tons. . .				

In my opinion, the Average Rates of Produce returned by the Enumerators for the above Electoral Division are fairly stated, except for those Crops opposite to which an amended rate is given.

Signature of Guardian _____ Date _____

The Registrar-General requests that the Guardian to whom this Form is forwarded for revision will be so good as to return it to the Clerk of the Union, signed and dated, at his earliest convenience, for transmission to the General Register Office, PARLIAMENT HOUSE, DUBLIN.
